Day after day, year after year, these factors of concern remain and often seem to grow without definitive remedies from any elected representatives.

A Mrs. Powel of Philadelphia asked Benjamin Franklin, "Well, Doctor, what have we got, a republic or a monarchy?" With no hesitation whatsoever, Franklin responded, "A republic, if you can keep it."

From the loftiest point of its roof, during precisely three and half hours of each forenoon, floats or droops, in breeze or calm, the banner of the republic; but with the thirteen stripes turned vertically, instead of horizontally, and thus indicating that a civil, and not a military post of Uncle Sam's government, is here established. How We Got Here

Over the past 50 years, these same concerns have led many patriotic people deep into America's past. Through congressional records, Supreme Court cases, treaties, and Federal Code, these people have sought to uncover the real story behind all of our concerns.

In an effort to make sense of what seems to be political chaos, diligent research has uncovered a massive, world-wide fraud scheme orchestrated by deceit and identity theft set in place in the wake of the American Civil "War".

We all know someone who has had their identity stolen.

What if this was happening to you, without you even knowing?

It is time to face the facts. Turns out, we are not in control of our fate. Instead our fate is in the hands of the **greedy** 1%.

We Need Your Help

There is a way to stop the chaos and take control of your life and assets. The footwork has already been done, the fraud has been exposed.

All that stands in the way is lack of able people. It is up to you and I to do the work!

This is what the founders of the Constitutions set in place by "*We the People*": A government for the people, by the people.

We can clearly see those in political power are currently operating with no consideration for the people's needs or concerns. *Aren't these people supposed to be working as our employees?* In order to regulate policy for we the people, we can no longer let them represent us, **We** must be fully present.

The Outcome

We have to educate ourselves about our actual American Government and dust off the cobwebs and records so that we familiarize ourselves with the long-vacant offices and traditions of our own **Government of the People, by the People, and for the People.**

Starting state by state, county by county, the people must assemble and take responsibility for self-governance. Through self-governance, we can elect our own public officials. This will show we are no longer allowing corporate interests to persuade political agendas without our consent.

It is the Michigan Assembly's mission to restore **all power** back to the people.
